Attention Physicians and Health Care Professionals completing vision, hearing and dental screenings:

This child is an applicant for the 2018-2019 NC Pre K Program. Our program is subject to all child care licensing rules and regulations. Each child entering NC Pre K is required to have a full vision, hearing and dental screening before entering the program or within 30 days of enrollment to comply with DCDEE licensing.

We ask that you please attempt to complete these screenings. If the child is uncooperative or cannot complete the screenings for some reason, please note this with brief details in the appropriate sections on the NC Health Assessment Transmittal Form.

Please also complete the Dental Screening form attached. This section was not included on the NC Health Assessment Transmittal Form; therefore, an additional form was created as an attachment to meet licensing requirements. This is the very same type of simple dental screening which was included on the older blue Kindergarten Health Assessment form and can be completed by a doctor, nurse or PA.

We thank you so much for your help and cooperation with completing these forms. Should you and your staff have any further questions, please contact our office at 910-893-2344.

Kindest regards,
Harnett County Partnership for Children
NC Pre K Staff
